

garden lounger

This lounger is a real eye-catcher. For the design, we have reinterpreted the classic models from the 1920s and 1930s and given them a contemporary makeover.

The base made of hot-dipped steel with slightly rounded edges supports the concave reclining surface made of solid ash wood. The lounger is available in raw wood and in nine different colours.

For a comfortable sitting or lying position, the upper part of the lounger can be adjusted in six different positions. Thanks to the large wheels, it can be moved effortlessly across the tall grass. This straightforward and confident lounger brightens up every garden, and we promise it won't be knocked over by the first gust of wind.
