

multi-purpose table

This versatile multi-purpose table is available in a range of materials, sizes and shapes. With its top made of robust and low-maintenance synthetic resin, it is perfect for a bar or charming bistro. The multiplex veneer is more suitable for rooms with a warm and cosy atmosphere. Last, but not least, the matt and elegant linoleum creates a sombre and representative mood. The tabletop is supported by a black column with a round base plate. The table is available at two different heights, to allow for a short stand-up meeting or a longer conversation while sitting comfortably. Let us know your needs, and we will find the right table for you.
